## Love Horoscope for 2011

**O**fer Cohen was born into a family known in Cabala and mysticism for decades. At the age of 16, he discovered his abilities to predict events without any tools such as astro-charts or tarot cards.

He realised that he was accurately face-reading people. Ofer's grandfather would often guide him through his dreams and does so until today.

At the age of 22, immediately after his marriage to a French woman, Ofer started practising astrology and palmistry. By the time he was 27, he was an expert in palmistry, Western astrology and medical herbs. Ofer is known for reading the astro-chart and tarot cards in a completely different way than the common astrologers and psychics of the West.

In the late 1990s, he hosted several radio and television programmes and made accurate predictions about famous footballers and celebrities that came true. Such accurate predictions put Ofer in a

league above the rest of psychics and healers around the world.

In the mid 90s, Ofer studied Buddhism and tantric Vedas. It was in 1999 that he left Israel for further studies in India, and decided to settle in the city of Mumbai in 2003. His home is always filled with people coming to seek his tarot reading, help and guidance.

Ofer is the astrologer, tarot reader and guest columnist of HELLO! India, and is currently involved in the production of two spiritual films which are dedicated to the mission of awakening and enlightening people all over the world.

# Capricorn

DECEMBER 22 - JANUARY 20

2010 was a difficult year. This year still has many challenges waiting for you. Those born before the 30th of December will have to go through drastic changes that will eventually change their lives. The presence of Saturn in Libra will have a strong impact on you. In order to deal with this, you will need to be more responsible at work and learn to be independent. Many of you will need to take care of old parents or to deal with a difficult family situation.

### CAREER AND FINANCE

You will have to be on your best performance this year if you want to please yourself and others. There will be no place for compromises. The willingness to work hard and a show of leadership are crucial for your career progress and for leading you to success. During your busy schedule, you will have to dedicate time to solving family problems and time for your children.

From January until June there might be some decisions which will require you taking risks. From June onwards, you will receive unexpected funds from property transactions or from family support. Although it's a good year for selling and buying properties, the months of April and August are not recommended for any large financial activity.

### MARRIAGE AND RELATIONSHIPS

After years of bad experiences and broken hearts, you can now find a serious relationship and get married. Plans to get married should be from January to May. This is especially important if you are getting married to someone whom you have known for the last few years. April is not recommended for travelling or a marriage ceremony. Those who wait until after June might suddenly feel a fear of commitment or even get rejected after given a marriage commitment.

### TIP

Marriage should be before May in order to avoid sudden disappointment. Try and avoid being involved with someone younger than you as this might not last forever.

# Aquarius

JANUARY 21 - FEBRUARY 19

Your ruling planet Uranus will enter Aries in March, and this will have a great impact on your life. Many of you will shift to a new place and will experience drastic changes in your lifestyle. You will suddenly be interested in studying and exploring new fields which will bring new excitement into your life. During the months of January to May, you have the best chances of finding love through travelling or while visiting far places. After May, you will feel a great need to settle down and it may be with someone new or with your current loved one.

### CAREER AND FINANCE

If you are working in a big company or employed by a large organisation, you can expect a promotion and a better work environment. Changes in the work structure and improvement in your work relationships are also predicted. However, you will need to be extra sensitive and patient with your colleagues, especially if you are in a senior position. Your success depends on you offering new ideas in order to solve work problems.

### MARRIAGE AND RELATIONSHIPS

Many of you will get married with someone from a far location and will move there to live together. Others will meet someone special through the internet or while travelling. A second chapter is waiting for those willing to open their hearts to someone new. Marriage can be successful during the month of February right after your birthday. The months of May, June and December are also suitable months for marriage. The months of August and September are not recommended for marriage ceremonies.

# Pisces

FEBRUARY 20 - MARCH 20

Until the 22nd of January, the lucky planet Jupiter will be in your sign and it is time to update your lifestyle, find a new property or set up a marriage date. Students will be very successful and will succeed in exams. If you were born during the last week of Pisces, you will need to go through very important changes that will eventually lead you to a better financial position.

### Career and finance:

You will enjoy travelling and encounters with interesting people this year. You will have to learn to balance between your daily commitments and your family responsibilities. Children will especially need your support and attention, which will often disturb your work schedule.

In the first half of 2011, Uranus and Jupiter will enter your property and finance house and bring important financial changes. Jupiter shows a good profit or a new source of income but Uranus shows instability and dangerous risks. Many of you will choose to start something completely new but there is a danger of losing money or taking unnecessary financial risks.

### Marriage and relationships:

You will be able to stay away from a past relationship that has caused you pain. A new chapter can lead to marriage if you let it happen. The problem of being far from your loved one can cause you to hesitate in making a final commitment or to continue delaying your marriage plans. Thinking too much will end up in you losing an opportunity to settle down.

During the second half of 2011, there will be many family events and a possibility of getting pregnant. A good time to get married is the week after your birthday, the months of May and November.

### Tip:

Emotionally, you have all the power in order to overcome crises. Do not sit back and wait for something to happen. If your loved one is located far from you, it might be the one you've always wanted to be with.

If you are still doing the same job you did last year and suffering from bad relationships with colleagues, then it's time to look for a better place or to insist on getting a better work condition.

This is a sensitive year for your finance.

Your expenses will continue to be high and you must adopt a very economic and conservative approach. Family will be there to help you to deal with any arising problem.

### MARRIAGE AND RELATIONSHIPS

Marriage can happen this year if you or your loved one is willing to be fully committed. There is a high possibility that your loved one is not ready to settle down or to make a final commitment. Until March, you will still be in a relationship that you were involved in last year, but from April onwards you will suddenly feel lighter and more open to a new experience. A relationship with someone from abroad is possible yet it may cause great doubts and frustration as you tend to have high expectations.
